KEY SKILLS

• Java | MySQL | Selenium | OOPS | Web Development | HTML | Manual Testing | Jira

KEY PROJECTS

Explore India: A Responsive Tourism Website

- Interactive India Explorer: Built "Explore India", a responsive tourism website showcasing diverse destinations, interactive maps, stunning visuals, and seamless booking.
- Effortless Travel Planning: Empowered users with travel tips, blog posts, and integrated booking options for a stress-free India adventure.
- Tech Savvy Development: Demonstrated proficiency in HTML, CSS, Bootstrap, and more, creating a responsive and user-friendly experience.

Flipkart Automation Testing

- Automated & Efficient: Built Selenium test scripts to automate critical Flipkart functionalities (search, checkout, etc.) for cross-browser compatibility and faster testing.
- Quality Champion: Identified and resolved numerous bugs, enhancing software stability and user experience for seamless e-commerce shopping.
- Tech Tester: Proficient in Python and Selenium libraries, implementing data-driven testing and reports for efficient analysis and bug tracking.
- Impactful Contribution: Streamlined testing process, saving time and resources, while ensuring Flipkart delivers a reliable and smooth user experience.

EXPERIENCE

- Manual Testing
- Automation Testing
- Salesforce
- Web Development
